

Social and Personal

Items for this department are welcomed. They may be sent or telephoned to the Telegram's editorial department, telephone Bell 288 J. Home 157 Y. Owing to space limitations and press runs, social and personal items are sometimes found on page 3 as a continuation of this department.

Sewing Club Entertained.

The Narcissus Sewing Club of Northview was delightfully entertained a recent afternoon at the home of Mrs. Bert Stamm in that suburb. A most delightful afternoon was spent, fancy work and music being the diversion. At a reasonable hour dainty refreshments were served.

Sabbath School Picnic.

The Bnia Brith Sabbath school will hold a picnic for the Sunday school classes at Jacob's grove Sunday. The classes and teachers will leave the Walden corner in special cars at 9:45 o'clock Sunday morning and will spend the entire day at the grove. A large attendance is expected.

Attractive Meeting.

Pink roses obtained in the floral decorations at a very attractive meeting of the Junior Bridge Club entertained from 3 to 5 o'clock Saturday afternoon by Mrs. Henry Alexander. Upon the arrival of the guests ices, cake and confections were daintily served in the dining room, Mrs. May-

NOTICE

Feed That Is All Feed and Cement That Holds Forever

We refuse to handle shoddy supplies of any kind, but we do sell the best feed and the best cement at prices as low as they can be bought anywhere. And what we deliver you is all feed or all cement, a good dollar's worth for a dollar. We handle

ALPHA THE GUARANTEED PORTLAND CEMENT

because we know that ALPHA can always be depended upon. We warrant every sack of ALPHA to more than meet the U. S. Government Standard for strength. ALPHA goes further and does better work than ordinary Portland Cement because every ounce is pure, live and active. Our customers who have used it always insist on ALPHA—the Guaranteed Portland Cement.

Call and get our prices on the best cement and feed—any quantity from a sack to a carload.

G. M. WEST, CLARKSBURG, W. VA.

at Parkersburg and formerly pastor of Goff Methodist Episcopal church here, is in the city to attend the dedicatory services Sunday at the Adamston church of the denomination.

William C. Bond, of Thomas, is a city visitor.

A. J. Hood was here from Fairmont Saturday looking after business affairs.

L. B. Keltner, of Baltimore, is visiting at the home of his sister, Mrs. A. D. Hutton on St. Clair street, Broad Oaks.

Mrs. Elise Gibson, of Parkersburg, and Mrs. Charles Ritter, of Elkins.

OF INTEREST TO WOMEN

A Sanitary Sink Cloth.

Do you know that a sink cloth is as excellent a cleaning agent as it is because it does not soil the hands, and is sanitary (as it is burned after using, thus doing away with the unsightly and unsanitary sink cloth.

Pour on the sink about a tablespoon of kerosene, then wipe with the paper. A sink cleaned in this way is free from grease. It is glossy and sheds the water; therefore, it does not rust easily.

The Use of a Tin Box.

Keep cheese in a cool, dry place, and after it is cut, wrap it in a linen cloth and keep it in a tight tin box.

Keep bread in a tin covered box, and it will keep fresh and good longer than if left exposed to the air. Cake also should be kept in a tight tin box. Tin boxes with covers like trunks with handles at the ends, are best for bread and cake.

OIL AND GAS

The South Penn. Oil Company's well on the B. F. White farm at Evans city, Butler county, is still flowing at a rate that varies between twenty-five and thirty barrels an hour. Yesterday a start was made to drill it a little deeper into the bay, and it began to increase its production and flow with such force that drilling was suspended and they decided to let well enough alone. While drilling the production went up to 35 barrels an hour. The way the well has been holding up makes the outlook for a pool of some dimensions look promising. It is argued that if the well did not have some backing it would have showed sign of weakening by this time.

In the vicinity of the gusher, Platted and Company have made the location and building the rig for their No. 4 on the Kreitzberg seventeen acres. This location is on a direct line between its No. 2 and the South Penn Oil Company's No. 5 and should be a large producer. It may be remarked that the South Penn Oil Company's No. 5 and No. 2 on the Kreitzberg seventeen acres are the best producers in the development.

The first fight for a town lot lease was precipitated yesterday when H. H. Winger and others moved in a drilling machine and material for drilling a well on a lot that was formerly a part of the B. F. White farm, and the South Penn Oil Company claimed that its lease covered the lots as well as the farm on which it has operated for more than twenty-five years. Disregarding the priority claim of the South Penn Company, Winger and others decided to take a chance. The superintendent of the South Penn Company called in a number of his field foremen and engaged two score of able-bodied laborers and mobilized them in the vicinity of the contemplated well. They did not use any heavy siege guns, or anything of the kind, but at a given signal, the entire force made a rush for the drilling machine and all of the material that had been placed on the lot and in a very few minutes it had been thrown off and the South Penn was in possession. While there has been no armistice declared the Winger forces have not made an effort to regain possession of the lease by force. The South Penn Company, however, has not relinquished its vigilance and will hold possession by force if necessary. Had the town lot well been drilled it would have approached to within seventy-five feet of the gusher.

The Schmidt Oil Company is building the rig for a well on the Bradshaw lot, located 1.100 feet northwest of the gusher. Weber and Company have drilled test well on the Weber lot into the 100-foot sand and have developed a show f ora producer from that level. They are drilling to the third sand, and if nothing is found in that formation it will shoot and test in the 100-foot sand.

The latest estimates of the Valley and Company's well on the Jeanette McCorkle farm, near Dorseyville, Allegheny county, place its production at 100 barrels a day and there is quite a little skirmish for leases in that locality. The National Oil Company is starting an offset to this well, located on the James Pollock farm.

The West Virginia fields continue to furnish a succession of light producers. At the present time there is no section of West Virginia that shows unusual activity. The work under way and starting is widely distributed through the old districts. In the salt sand development at Roseale, Birch district, Braxton county, Jessop and Perry have now drilled their No.

CHICAGO DAIRY

will be open from 7 to 10 a. m. and 4 to 6 p. m.

CUBAN PRESIDENT WILL RUN AGAIN

President M. G. Menocal.

President Mario G. Menocal will be a candidate for re-election as the chief executive of Cuba, according to reports. The most promising figure on the political horizon as an opponent of Menocal is Dr. Alfredo Zayas, the perennial presidential candidate and former vice president.

2 on the C. N. Snodgrass lot through the salt sand and have a fifteen-barrel pumper.

On Short Run, Centerville district, Tyler county, the South Penn Oil Company has drilled its test on the B. F. Montgomery farm through the Big Injun sand and has a fair gasser in that formation. On the same stream and in the same district Dotson, Filkins and Company have drilled a test on the Isaac Smith farm through the same formation and had the same kind of luck.

On Blue Creek, Elk district, Kanawha county, the United Fuel Gas Company has drilled No. 4 on the W. H. and Mary J. Morris farm through the Weir sand and has a show for a 15-barrel pumper. In the same district the same company is due in the sand at a second test on the Numa Block Coal Company's property.

The Southeastern Ohio fields are furnishing nothing better than light pumps. In the New Castle district, Switzerland township, Monroe county, the Cole Oil and Gas Company has drilled a second test on the Grant Meeker farm through the Keener sand and has a show for a ten-barrel pumper. In the Chester Hill district, Fairfield township, Washington county, Lawrence Stephens has completed a test on the James Bailey farm and has a show for a ten-barrel pumper in the Keener sand. In Wesley township W. K. White and Company are drilling No. 16 on the Jason A. Wilson farm.

one on Buckhannon avenue, forty by from 140 to 218 feet, a number on Stanley avenue forty by 120 feet as well as a number on Concord and Hudson streets forty by 120 feet. The entire addition is completely sewer and there is also a complete water system laid, which was done under the direction of George M. Osborn. Gas, electric and telephone lines have also been installed complete, along with eighty-one ornamental lights properly stationed for all purposes. All lines including water and sewer, are laid underground and all are in the alleys with taps and the like installed for every lot so that there will never be any tearing up of paved streets in connection with these systems. The luminous arc lights of the ornamental typ, the most modern in existence and requiring the introduction of equipment never known here before, is employed in the electric light system which alone cost Mr. Highland \$8,000, but notwithstanding the great cost he will guarantee free electric light for at least two years for the entire addition, having already entered into contract for that length of time. The ornamental light poles

REMEMBER, these goods are as advertised and no reductions will be offered after July 17th. Take advantage of this offer while it is open.

Store Closed All Day Monday, July 5th.

THE D. M. OGDEN COMPANY

"THE HOUSE OF QUALITY"

are iron and of most beautiful design than which in appearance none more beautiful can be found anywhere. The water lines are of ample size and the sewer lines from eight to ten inches. Natural drainage besides insures complete service.

A large electric sign placed on the flag pole near the center of the plaza will bear the name of the addition. Mr. Highland announces that such restrictions will be placed on sales to guarantee desirable ownership and that the lots will not be sold indiscriminately. This will prove a most attractive feature.

Goff plaza represents the largest outlay of money, the greatest amount of work, the use of the greatest skill

ever known to Clarksburg and it is an achievement second to none in all the country. something Clarksburg is proud of, an addition marking a renewed era of community development. The opening day of the sale will make the opening sale day the northern sections of the state, and that many of them will fall in love with the addition, buy lots there, build homes on them and come here to locate permanently goes without saying.

With characteristic enterprise Willison and Dennison and Mr. Highland will make the opening sale day the greatest in the annals of Clarksburg, with features yet to be announced.

and Clarksburg will be called on then to realize that the greatness of its future has received a stimulus by the opening of Goff plaza which will advance the city past many milestones in its march on the road of progress.
